**Oobr™ Full-Back Booster Seat –
a Passenger Vehicle Seat Sized
for your Child**

clek

Oobr – Elemental Safety System™

- Rigid LATCH system
 - Locks the booster seat into place using your vehicle's LATCH anchorage system to provide additional booster seat stability in a collision
- Magnesium back frame
 - Better contains the torso during a side impact collision and protects against vehicle intrusion
- Structural head restraint with deep side wings
 - Connects to the magnesium frame using steel rods to reduce twisting movements and improve head protection in a collision
- Energy-absorbing foam layer
 - Absorbs energy in a side impact collision resulting in less forces transferred directly to your child
 - Head restraint, back frame & armrests
- Belt guides
 - Improve belt positioning on your child's shoulders and hips

Oobr – Grows with your Child

- 12 Adjustable head restraint positions
 - Minimum head restraint height of 22" and shoulder belt height of 14" (measured from the top of the seating surface)
 - Maximum head restraint height of 28.5" and shoulder belt height of 21" (measured from the top of the seating surface)
 - Design allows for maximum shoulder width for larger children

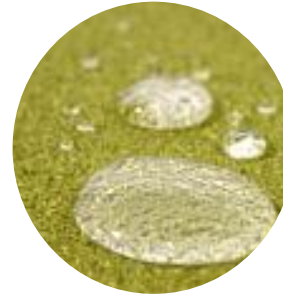

- Easily converts to backless mode

Oobr – Comfort and Convenience Features

- Adjustable rigid LATCH system
 - Improves ease of installation in vehicles with hard to reach lower LATCH anchors
 - Recline feature, improving comfort and head retention in head restraint when child falls asleep
- Proprietary use of CRYPTON® Super Fabrics, providing stain, moisture and bacteria resistance.
- Removable cup holder
 - Can be attached on either side
 - Dishwasher safe
