

## **Impaired Driving Track:**

### **01. Campaign to Eliminate Drunk Driving: A Fifth Anniversary Update**

Last year the Campaign to Eliminate Drunk Driving issued a report to the nation on its five year successes and issued a road map for the nation on how to move forward toward the elimination of drunk driving. This workshop provide an update on the Campaign as well as an update on some new initiatives with regard to the elimination of drunk driving.

### **02. Community-Based Self-Sufficient Impaired Driving Programs**

Securing funds for local programs has become more difficult. NHTSA recently published a document on community-based self-sufficient impaired driving strategies. This workshop will highlight the success of those programs.

### **03. Comprehensive Systems Overview of DUI 101**

Without the coordination of the entire criminal justice system DWI offenders often don't get the proper attention the crime deserves. This panel will examine DWI arrest from the criminal justice and driver licensing perspective, from arrest, prosecution, adjudication, driver license sanctions and finally probation and supervision.

### **04. Nighttime Urban Integrated Strategies**

Over the past decade, the Responsible Hospitality Institute (RHI) has been working with urban communities to integrate and develop programs to address impaired pedestrian and driving incidents through downtown development efforts. Strategies highlighted at this session will include valet/security training, staggered alcohol retail service hours, integrated taxi services, day to night parking strategies, controlling pedestrian traffic flow, and others.

### **05. Judicial Outreach Liaisons**

This workshop would include state JOLs, and state highway safety office representatives leading a discussion on the role and value of state JOLs. Discussion will also include how JOLs work with law enforcement, prosecutors and the judiciary in general.

### **06. Update on Drug Impaired Driving**

The panel will discuss current practices, new research released in the past year, National strategy, and ONDCP's effort to reduce drugged driving.

### **07. High Visibility Law Enforcement**

NHTSA has a long history of encouraging the use of High Visibility Enforcement (HVE). Exactly what is HVE and how can it work for your community? In January 2011, NHTSA convened a panel of field experts who are effectively using HVE to help define and clarify High Visibility Enforcement and create a useful toolkit that will assist others with implementing or enhancing their HVE efforts. This workshop will share the outcomes of the panel and showcase the toolkit.

### **08. DUI Child Endangerment**

Are you prepared to provide for children who may be present during a traffic stop or DUI checkpoint with an impaired driver? Driving drunk with a child in the car is a crime that we all agree should never happen. And yet one year since legislation passed in New York making it a felony to drive drunk with a child in the vehicle, over 1,400 people have been charged with this crime. This workshop will examine this issue and make recommendations for how states should prepare to see and accommodate children at these activities.

### **09. Ignition Interlock Update**

Latest news on interlock effectiveness and a discussion of how the state ignition interlock programs are advancing, including the establishment of an association of state ignition interlock program administrators, and state representatives that can discuss efforts they have underway to establish or expand interlock programs.

### **10. Victims Impact Panel**

Every impaired driving traffic fatality and injury statistic represents a person and a family whose lives are changed forever. This workshop exposes the tragedy caused by impaired driving and the aftermath caused by America's most frequently committed crime.

## **11. Innovative Judges and Their Traffic Offender Programs**

A panel of Florida Judges will showcase innovative programs that they have implemented for dealing with juvenile and adult traffic offenders. The judges will explain how they have developed their programs with the cooperation of public safety agencies and other criminal justice professionals. The offenders who are the subject of these programs range from those who have committed simple infractions to those charged with criminal traffic offenses including impaired driving. The panelists will explain the impact that these programs have had on their communities and how they can be replicated in other jurisdictions.

## **12. Power of Parents**

MADD's Power of Parents program is designed to help parents have a conversation about underage drinking with their son or daughter. The program is based on sound research from Penn State University and will help prevent future drunk drivers.
